

Frattoni in gomma

Rubber finishing trowels

PAVAN

La selezione della migliore gomma spugna, l'assemblaggio garantito, nonché un impianto all'avanguardia per la produzione di supporti in poliuretano, sono le basi che ci permettono di realizzare frattoni in gomma spugna di altissima qualità. Non a caso, l'assenza di resi per difetto ha fatto sì che questi articoli siano divenuti celebri tra gli operatori più esigenti del settore.

The best selection of rubber sponge, guaranteed assembly, as well as an advanced system for the production of polyurethane mounts: these are the key elements that allow us to make high-quality finishing trowels in rubber sponge. Not surprisingly, the absence of defective product returns made these articles famous among the most demanding operators in the industry.
